PROFESSIONAL SUMMARY

Full Stack Developer with experience in building scalable MERN applications, adept at translating business requirements into high-performance, end to end solutions. Seeking to leverage expertise in React, Node.js, and cloud deployment to drive innovative product development.

PROJECTS

Doctor's Appointment Booking Web App — MERN Project

- Led the design and implementation of a responsive MERN stack Doctor Appointment Booking web app featuring JWT authentication, Payment integration, and WebRTC video call support, streamlining virtual and in person consultations and boosting online bookings by 35%.

Online Voting System — PHP project

- Designed and implemented a fully responsive online voting system using HTML, CSS, JavaScript, and PHP with a MySQL backend, delivering secure, real time vote collection and cross device compatibility while ensuring data integrity and reliable performance.
